A Ministry of Construction  
Workers Christian Fellowship

Hello to Everyone!

Where did the summer go? Once again I am reminded how great our God is. We had plans for this summer and the Lord knew better. It is always wonderful to see how, if I get out of the way and let Him work, things get done. We had plans to be in New York at a project for June and July, but as it has worked out we have had the privilege of helping with Lori's mom here at home, and with our son's condo in Ann Arbor, MI. The summer as flown by!

Well, with the summer coming closer to a close, the Lord has provided a smaller project only a couple of miles from our home. We are working at New Hope Church getting a new to them

building ready. This was a former Ace Hardware building so we need to put in class room walls, etc. Please pray for the details of this project to be worked out in His timing and His way.

Looking toward the fall the Lord is working out for us to go to a Construction Workers Christian Fellowship Staff Conference and Rendezvous. We will be helping at a camp and conference center to finish a project that has been going on for about six years as well as staff meeting and updates. We hope to be able to complete the project before our team leaves. This project is in mountains of southern California. We would love to have your prayers on getting the RV road worthy for that kind of trip and for the completion of this project for the camp.

**We thank God for you, and we thank you for your prayer and financial support.** Please continue to pray for us as we seek to do the Lord's will. It seems we always face attacks from the devil when we start new projects, so we especially need your prayers heading into this fall and winter.

Serving Those Who Serve Others".

Sincerely,

*Warren and Lori Yates*

**Ministry Expenses Corner:**  
\$600.00 per month needed  
Currently committed: \$430.00
